

COMPANY PROFILES - ANTWERP LOGISTICS DELEGATION

EUROPORTS - www.euroports.com

Representatives participating: Mr. Joeri Tielemans - Commercial Director & Ms. Lisa Vaarwegen - Business Development Manager.

Euroports is an international group, offering transport and logistics solutions. Our core service package includes terminals, transport services, freight forwarding and contract logistics in a number of industries. We aim to be your partner of choice in maritime supply chain solutions.

Services:

Contract Logistics - They serves clients at their sites. They can operate at locations outside their own terminals. They are also working on separate terminal sites on behalf of their clients handling various commodities. Contract logistics operations are located in Liege, Ghent, Varna and Suzhou.

Global Forwarding - The freight forwarding department, Manuport Logistics has years of experience in following key service areas:

- Sea Freight
- Air Freight
- Road Transport
- Barging
- Customs Clearance
- Warehouse Handling

Operations are focused around market segments such as Food, Breakbulk, Import, Industrials, Consumer goods.

Transport Services - They offer a wide range of transport services and aims to create an optimized flow for each traffic. They offer road transport, inland shipping (bulk, break bulk, containers), customs clearance and ship agency.

Terminals - At their international network of port terminals, they handle a wide range of products: Break bulk: Steel and Project cargo, Forest Products, Ro-Ro, Containers, Coal, Fertilizers, Minerals, Agribulk. With locations in Belgium, France, Germany, Finland, Spain, Italy and China, their network extends Europe and China and offers a big geographic network for our customers to benefit from.

NORMED - www.normed.com.tr

Representative participating: Mr. Jan Akavi

Normed provides regular liner service in transportation of the general, project and heavy cargo with a fleet of modern multi-purpose, box-shaped vessels. Over the years, Normed has dealt with many high profile projects and can provide a central logistical function that is essential to the success of launching on time. Our activities are mainly focused on shipping, yet frequently consist of land transportation as well. Whatever our clients' request may be, the know-how and experience of the Normed team creates added value to transportation. As a result, our dedicated staff will go to any length to ensure that specific needs are met.

Services: Normed's Major Operations Include:

- » LINER SERVICE
- » AGENCY SERVICES
- » WAREHOUSING & TRACKING
- » CHARTERING AND FORWARDING
- » SUPPLY CHAIN MANAGEMENT
- » LARGE SCALE PROJECTS

Normed provides regular liner service with it's own ships as well as other long term chartered vessels with a capacity of 4.700 DWT to 11.000 DWT multi-purpose using the latest state of the art technology that are particularly designed for general and project cargoes.

THOR SHIPPING & TRANSPORT (TST):- <http://www.thorshipping.com/>

Representative participating: Ms. Ann Favere - General Manager

The Thor Group is a specialised, international provider of integrated logistics service and they provide support to trade and industry.

Services:

- Land transport
- Sea transport
- Logistics

TST Amsterdam, Antwerp, Durban, Johannesburg and Västerås are companies active in Logistics.

Distribution - Acting as part of the distribution system of leading European Steel producers, the Thor Group Of Companies distributes substantial amounts of cargo by truck, barge and rail every year.

Agency & Customs - Agency activities are the mainstays of the Thor organization. They operate as charterers or owners agents and often as both.

Forwarding & Chartering - Worldwide forwarding is the main focus of the deep-sea forwarding department in the Thor organization. This is done for both break bulk and containerized cargo. Customs formalities, interpretation of letters of credit, temporary storage, order picking and even documentation are some of the activities. Project cargoes and all kinds of IMO cargo are also handled by them.

VAN MOER LOGISTICS - <https://vanmoer.com/our-services/>

Representative participating: Mr. Dennie Lockfeer - Chief Commercial Officer

Van Moer began as a haulage company 25 years ago, but we've come a long way since then. Nowadays, Van Moer offers tailor-made logistics solutions. Transport is just one part of the joined-up approach to logistics we offer today. We have 240 trucks on the road, but over the

years, containers, fleets, trains, cranes, warehouses and repair sites have also been added to our business.

During the past 25 years, we've been communicating a lot with the customers we used to provide with mere transport services. We've listened to their needs to identify the pinch points in their processes. We've analysed what methods they use to move goods from point A to point B. We've discovered how they transport, store and clean their goods, and so much more. This has allowed us to tackle these issues efficiently and develop a fully integrated logistics service. The key to our strengths and added value, you ask? Our tailor-made concepts! We actually organise everything, from A to Z. Optimisation? That's our middle name!
